

Surrey Highways External Information

Advanced Information on Street Works			
Road Name and Number		A30 - London Road Bagshot	
Utility Company		Scottish and Southern Energy	
Reason for Works	To support the development of a new retail development on the old Notcutts nursery site, it is necessary for Scottish and Southern Energy to upgrade the electrical power supply in the area.		
Extents of Works	The work will require a new power cable to be laid between the build site adjacent to Waters Way and the electrical substation opposite the fuel station at the junction with Bridge Road		
Map of Works			
Highway Impact	The majority of this work will be carried out by reducing two lanes to one lane, however at times multi way temporary traffic signals will be required. Whilst every effort has been made to reduce the effect on traffic flows, some disruption can be expected and journey times will be affected.		
Works Duration	<p>Work is expected to start on the 14th of February 2015 and is anticipated to last around 12 weeks. Extended working hours including weekends will be used to expedite the completion of the project. The timing of the works will allow the use of both the half term and Easter school holiday periods when traffic volumes are known to be lower, whilst allowing the supermarket development to meet the required timescale for opening.</p> <p>Advanced warning signage will be placed and a letter drop undertaken to local residents and businesses.</p>
